CUSTOMER TESTIMONIAL

Exodon

Construction and public works sector

Exodon is a group of 8 companies operating in construction and public works, as well as in transport and lifting.

Testimonial from Mr Jérôme Antoine, co-manager of the Exodon group.

The needs

We had two wishes: in the first phase, to **automate the accounting entry** of our supplier invoices, which is rather long and tedious work. In the second phase, to **improve the circulation of documents** internally and between the different sites, and to free up storage space.

*"**Zeendoc**, the solution that supports me in my **digital transformation**."*

200
employees

5
sites

The implementation

Today, 30 people in the group use Zeendoc. The accounting and HR departments are the main users of the solution. There has been no resistance to change; they quickly became familiar with the tool because it is **a solution that saves time**.

We have set up cabinets in Zeendoc to manage:

- Our **1000 supplier invoices** per month;
- Our **800 customer invoices** per month;
- The payslips of our 200 employees, spread across several sites.

We send our contracts electronically to our customers with Zeendoc, and are starting to set up internal contracts with alerts on due dates.

"We chose this solution because it not only meets our needs, but the solution also offers us much more."

The digitisation of our 200 payslips saves our HR team 1 or 2 hours per month.

1000
supplier invoices
per month

800
customer invoices
per month

200
payslips sent
per month

DIVIDED BY **5**
the time spent on accounting entries
per month

50
fewer binders
to store per year

The results

In brief

Zeendoc has enabled better circulation of documents both internally and externally, because it is more than a DMS:

- Once invoices are sent by secure email, we have **better tracking of customer invoices**, because Zeendoc shows whether they have been received, whether they have been downloaded, and how long ago... and if not, we can schedule **automatic reminders**;
- We still send a few paper invoices, but this is now done automatically through a postal service integrated in Zeendoc;
- The **200 payslips** are sent in one click directly to our employees' personal digital vaults, where they are instantly accessible.

The benefits

Management has **access to documents** in a much simpler way, since from anywhere, including my smartphone, I can consult all customer and supplier invoices and all of the group's payslips, very simply, **in just a few clicks**.

Exchanges with our chartered accountant and statutory auditor are faster and more efficient, because we give them access to our customer and supplier Zeendoc cabinets, which avoids sending invoices by email or exchanging paper binders. Once the solution was in place, automating accounting entry saved us nearly **5 hours per accountant per month**.

All of this has saved us a great deal of time in searching, and has also increased productivity by handling documents as little as possible.

We have also gained storage space, with roughly **50 fewer binders per year**. We have 10,000 fewer printouts per year because we no longer copy invoices, which represents a real **saving on printing costs**, and also allows us to be part of a **CSR approach**.

It is a very simple solution to set up in a company.

Activity: Construction and public works

Number of employees: 200

Number of sites: 5 operating sites located in Trignac, Angers, Vigneux de Bretagne, and Vannes.

The future

We would like to set up a cabinet for leave requests directly in Zeendoc.

Mr Antoine has already recommended Zeendoc to several companies, and says he is ready to keep doing so, highlighting: the **performance of the tool**, its **ease of use**, and its **fast search** of documents by keyword.

WHY CHOOSE ZEENDOC ...

Accessible and hassle-free

- Unlimited users, at no extra cost.
- Storage included, ISO 27001 certified.
- 100% cloud & low-carbon solution.

Efficient and scalable

- Modular and adaptable to your needs.
- Compliant with mandatory e-invoicing.
- Boosted by AI developed in-house.

Connected to your ecosystem

- Interoperable with your business tools.
- Compatible with all accredited platforms.
- Secure access from all your devices.

Trusted expertise

- 25 years of experience in document management.
- Leader for very small businesses, SMEs, and local authorities.
